

SLTEC Nutrient Solutions for Dry Conditions

Making every drop count!

Active crop growing roots need moist soil to enable effective uptake of applied fertilizer and nutrients. In drought conditions, the soil immediately around your irrigation system provides a life-line to your crops.

So put your fertilizer where it counts.

SLTEC liquids are concentrated solutions offering 100% dissolved and crop ready nutrients. SpringStart® and Green and Gro® products take the hassle out of fertilizing through irrigation systems.

SLTEC® products and services;

- New liquid blend fertilizer facility in Nth Victoria
- Include SpringStart® & Green and Gro® multi nutrient liquid products tailored for specific crop & environmental requirements:
 - SpringStart® products help establishing row crops to spring into action
 - Green and Gro® products are tailored for vegetables, tree and vine crops
- Include hydroponics & specialist custom blend services
- Can provide 1,000 L & Bulk options, 48 Hour on farm delivery of selected blends
- Are supported by an experienced agronomy & technical team

A range of nutrient blends are now available to suit your specific crop and soil needs.

Brought to you by SLTEC®, the leaders in integrated fertigation solutions.
