# Enhanced Soil Biology

# Fish Hydrolysate

Product Code: SG0012

Fish Hydrolysate, sourced from a comprehensive array of aquatic nutrients, serves as an excellent soil and plant nutrition, fostering rapid crop growth through its balanced composition of 18 essential nutrients. With protein nitrogen in a readily usable form and over 60 trace minerals supporting soil and crop health, Fish Hydrolysate applications, whether through foliage or irrigation, swiftly enhance overall crop fertility.

## Benefits of Fish Hydrolysate

- Certified organic nitrogen
- Contains Omega 3, 6 and 9 Fatty acids, and up to 17% Organic Carbon. Due to the organic nature of the product these concentrations will vary.
- Product is sourced from deep-ocean fish.
- A low-temperature, biological enzymatic hydrolysis process is used that ensures the integrity of fats, vitamins and other important compounds.

## Guaranteed Analysis (w/v)

Nitrogen (N)	2.5%
Phosphorus (P)	0.3%
Potassium (K)	0.3%
Calcium (Ca)	0.5%
Fish Hydrolysate	100.0%
Carbon (C)	12.6%
Specific Gravity	1.050 kg/L
pH	3.5 - 3.8

## Typical Application Rates

### Foliar:

Broadacre crops: 10 to 20 L/ha  
with at least 80 L/ha of water  
Orchard crops: 10 L/ha  
with a minimum of 1000 L/ha

### Fertigation:

10 to 50 L/ha with irrigations water as required.
